About Pexapark

Pexapark is the trusted provider of reference prices and market intelligence for renewable energy.

We deliver daily, market-representative prices for Power Purchase Agreements (PPAs) to 200+ renewable energy sellers and offtakers, alongside leading data providers, consultancies, and governmental and industry bodies.

We complement this price data with powerful analytical tools and market intelligence to help our clients stay informed on market changes and manage the evolving risks and opportunities involved in renewable energy.

Then, through a unique combination of advisory services and portfolio management software, we go one step further, giving businesses deeper support in executing deals, optimising their portfolios and developing their strategies.

Pexapark was founded in 2017 with a mission to accelerate the energy transition towards net zero by creating an efficient market for renewable energy.

Pexapark logo

Main logotype

The main logo consists of the word "PEXAPARK" in a bold, uppercase, sans-serif font. The letter 'X' is stylized with a cross-like shape in the center.

Pexapark founders

Michael Waldner - CEO, Co-Founder

Michael, a pioneering co-founder of Pexapark in 2017, is dedicated to advancing transparency and accelerating the energy transition. With a career spanning over two decades in the energy sector, Michael's profound expertise encompasses trading, origination, and the strategic management of energy portfolios. He has been instrumental in structuring and negotiating PPAs for renewable projects, contributing to over 3,000 MW across Europe, while adeptly managing long-term pricing risks.

During his tenure at Axpo Trading, Michael served on the Management Board, where he played a crucial role in pioneering the company's PPA business, contributing to its strategic expansion in the renewable energy market. His experience also extends to consulting the banking and private equity sectors with McKinsey & Company. Michael holds a Master of Science in Engineering from the renowned Swiss Federal Institute of Technology (ETH) in Zurich.

Luca Pedretti - COO, Co-Founder

Luca has over 10 years of experience in building successful renewable offtake businesses. He has structured and managed energy off-take agreements from renewable energy sources of more than 3,000 MW.

Prior to co-founding Pexapark, Luca spent 10 years at Axpo Trading, with the last 4 years spent as Head Origination. Luca has also spent time working overseas in Indonesia providing advisory on microfinance. Luca holds a Master in International Politics and Governance from University of St. Gallen, Switzerland.

Luca is passionate about renewable energy and risk management and secretly writes blog posts about it.
